LORD LYTTON CONFIDENT LEAGUE CAN CALM FAR EAST DISPUTE

RACE SELECTIONS

FOR TO-MORROW

The Macao St. Leger will be the main event on the card at tomorrow's Autumn Race Meeting to be held at Macao. Seven events are on the programme, and some good racing should be witnessed.

One of the most interesting races will be the Machine Gun Troop Handicap over five furlongs. The event, which is an unofficial one, has attracted ten entries, including two likely looking ponies owned by Mr. R. H. Charles.

In the first event on the card, a field of nine entries has been received and the race looks a pretty soft thing for Venturous in spite of the fact that he will be carrying the colossal weight of 160lbs., 12lbs. heavier than Guiding Star who should secure a place.

Valley Hall should not experience a great deal of trouble in taking the Kuling Handicap, but the places are very open. There are half a dozen good ponies in the race who can run to places without causing any surprise, among them being Gallant Fox and Estrellita. Gallant Fox will be strongly supported.

In the Peking Handicap, Workable Stag who ran third to Champagne Bay and Deveron at Happy Valley last week, should prove a safe bet in company with Deveron, the latter named pony for a win.

ALLEGED PIRATE IN CUSTODY.

Charged Following Helikon Seizure.

Detained in connection with the piracy on s.s. Helikon, a Chinese male passenger was brought before Mr. Butters at the Kowloon Magistrate's Court this morning, on a charge of larceny on the high seas.

The Police asked for a remand to Monday morning, stating that other charges may be preferred against the accused. The remand was granted.

Accused is suspected to have taken part in the attack.

ANGLO-FRENCH PROGRESS AT ARMS PARLEY

Hope Four Powers May Join Conference.

GERMANY IS STUBBORN.

London, To-day.
A communique issued from Downing Street states: "Conversation took place to-day and yesterday between Mr. MacDonald, Monsieur Herriot and Sir John Simon on the subject of the British proposal for a meeting in which they would participate with Italy and Germany in order to overcome the difficulties which had arisen at Geneva."

French and British Ministers agreed in considering that the meeting should consist of the four Powers named and that the best place for such a meeting would be Geneva. The British Government have sought the concurrence of the two other Governments concerned in this proposal.

This proposed meeting would have to be of an unofficial and preliminary character. Its object would be to seek and propose means by which the common work of the Disarmament Conference within the League of Nations might be effectively resumed.

When Italian and German Governments were consulted on the suggestion that the Four Power meeting should take place in Geneva, the Italian Government at once agreed. Disappointment and surprise is felt at Germany's unwillingness to accept this proposal. Although London was mentioned in the terms of the British Government's original invitation, the actual place of meeting was in their view of minor importance and it is hoped Germany's present unwillingness to accept Geneva will be overcome.

Apart from this disappointment, it is understood the Ministers are well satisfied with their exchange of views, which revealed a mutual and very genuine desire to surmount the impediments existing in the way of real and effective progress with the disarmament problem.

The French Premier left London for Paris late in the afternoon. Before leaving, in an interview, he said that the conversations were carried on very pleasantly.

"We discussed things with frankness and came to our conclusions in perfect loyalty to each other. I think I can say all is well."—British Wireless Service.

Brazil Revolt Caused Rise In Coffee Prices

Rio De Janeiro, To-day.
Brazil's costly civil war was ended to-day with the collapse of the revolt in the state of Sao Paulo and the surrender of the rebel leaders.

The rebellion began July 9. Rebels and federals in the field exceeded 150,000. Commerce of Sao Paulo, richest state in the Union, was paralyzed and the world's greatest coffee port, Santos, was blockaded, causing an enormous increase in world coffee prices.

The amendments to the Dangerous Drugs Ordinance are announced in this week's Government Gazette.

JAPANESE REPULSE BANDIT ATTACKS ON TRAINS.

Inflict Heavy Casualties in Fighting Near Harbin.

Harbin, To-day.
Two passenger and one Japanese armoured train were wrecked and fired upon on October 10 by large forces of bandits, within a short distance of the last section of Harbin. The trucks being pulled up, the trains could not proceed.

All attacks were beaten off by Japanese soldiers with heavy losses for the attackers. It is reported that several Japanese soldiers and passengers were killed, but further details were unknown.

There is now no communication east of Imienpo.—Reuter.

Empire Trade Pact Valued

Mr. Bruce Approves New Preferences.

London, To-day.
Rt. Hon. Mr. Stanley Bruce, Australian Minister resident in London, expressed confidence to-day that the Ottawa-form trade agreement between Great Britain and Australia would prove of great advantage to both countries.

Operation of the new preferences, followed by a gradual adaptation of the Australian tariff policy to the principles agreed upon at Ottawa, should ensure British industry a preponderant share of Australia's import trade which, as Britain's action helped the Australian farmers to obtain a more satisfactory outlet for their produce, should steadily increase.—British Wireless Service.

GOVERNMENT SEEKS POWER OVER CHURCH

Spain's Bill To Control Religious Orders.

CHURCH NATIONALISATION.

Madrid, To-day.
A bill to regulate the great religious Orders of Spain was submitted to Parliament to-day.

The Government, by this projected legislation, proposes to reserve the right to approve the appointment of high ecclesiastical authorities and provides that all buildings used by the Roman Catholic Church for services should become national property.

So far, the reaction of the church has not been made known. But a storm of protest is anticipated, and even violence is possible.—Reuter.

SILVER DECLINES BUT DOLLAR STEADY.

After remaining at 1/8% throughout the week, the Hong Kong dollar was still steady this morning.

Spot silver quoted this morning at 17 11/16 shows a decline of 1/2% on yesterday's price, while forward silver which stood at 17 1/2 yesterday morning has now dropped to 17-18/16.

The London on New York cross rate remains unchanged this morning, being quoted at 4-63 3/4, while the New York on London rate which was quoted yesterday at 4-63 3/4, is this morning quoted at 4-63 3/4.

BELFAST LULLED BY PROMISE OF LABOUR RELIEF

Possibility Of Strike Is Averted.

BIG CIVIC PROGRAMME.

Belfast, To-day.
The possibility of a general strike is believed to be definitely averted by the decision of the Ministry of Home Affairs to increase the outdoor relief programme by between 40 and 60 per cent.

It is also agreed that the outdoor relief workers who struck will be allowed to resume work without victimisation.

The Corporation is also providing additional distress relief works to which the Government will contribute one half the cost.

Belfast is quiet now following the grave riots of Wednesday in which three were killed and many injured. The cause of the trouble was the lack of relief employment, which situation the Government has now remedied.—Reuter.

OLDEST WOMAN DIES.

Hon. Katherine Plunket Was 112 Years Old.

London, To-day.
The Honourable Katherine Plunket, eldest daughter of the second Baron Plunket, former Bishop of Tuam, Ireland, died yesterday. She was born in November, 1820, and was the oldest woman in the British Isles.—British Wireless Service.

The present holder of the title of the baronetcy is Terence Conyngham Plunket, 6th Baron, while the Hon. and Most Rev. B. J. Plunket, M.A., D.D., second son of the 4th Baron, is still surviving. He too held the Bishopric of Tuam for six years, and was also Chaplain to the Lord-Lieut. of Ireland.

U.S. SENATOR IN COURT.

New York, Oct. 10.
The trial of Senator James J. Davis of Pennsylvania, charged with violating the lottery law in connection with a membership campaign in the Moose lodge, of which he is the head, was declared a mistrial by the court to-day.

Defense Counsel Margiotti reported that a certain member of the jury was trying to influence others against Davis.—U.P.

Money To Be Loaned For Building Immense Bridge In San Francisco

San Francisco, To-day.
The way for the start of construction of the long-projected San Francisco Bay bridge, to be the world's largest, was cleared to-day when the Reconstruction Finance Corporation at Washington agreed to buy \$62,000,000 of the California state bonds to be issued to finance the project.

The great structure, to connect San Francisco with Oakland, Alameda; Berkeley and other East Bay cities, will cost a total of \$75,000,000, it is estimated.

The span will technically be three bridges, two over the main channel and one from Yerba Buena or Goat Island to the Alameda county shore.

The island is to be bored by a tunnel, and both the tunnel and bridge are to be two-deck structures accommodating six lanes of fast motor traffic on the upper deck and two electric train lines and three

FRENCH CHARGE GERMAN POLICE HAVE ARTILLERY

Increased Tension At Geneva.

BERLIN'S EXPLANATION.

Geneva, To-day.
A sensation was created in the lobbies of the League to-day during a speech by M. Massigli, French delegate to the private

meeting of effectives of a sub-committee of the Disarmament Conference, where he allegedly contended that German police were a part of Germany's armed forces and produced photographs showing police in possession of mounted guns.

His speech intensified the Franco-German tension, which is already strained owing to the deadlock in connection with the proposed reorganisation of the League Secretariat in consequence of Germany's insistence, among other things, that no power shall have more than two of its nationals in the upper ranks of the League. The demand hits France and Italy.

M. Massigli has since explained that he merely used official German data in his address but it is understood the text of the speech will be published in order to clarify the position.—Reuter.

THREE KILLED IN SHANGHAI RAID ON GANGSTERS.

Gunmen Fight Fiercely When Trapped By Police.

Shanghai, To-day.
Three gangsters were killed and two police wounded in a gun battle between the Settlement police and armed robbers yesterday. Another gangster was seriously wounded and is not expected to live.

On receipt of a report that four robbers had broken into a house in the Hongkew district, the police rushed to the scene, surrounded the gunmen and waged a furious battle, killing three and wounding the other robber.—Reuter.

PORTUGUESE VOLUNTEERS DECORATED

Service At Shanghai Highly Praised.

GIVEN ORDER OF CHRIST.

[From Our Own Correspondent.]

Shanghai, To-day.

The Chairman of the Municipal Council, at the last regular meeting, stated he had attended as a part of the celebrations of Portugal's National Day, a ceremony at which the Portuguese Minister presented the Portuguese Company of Volunteers with the Order of Christ.

The Chairman considered it highly appropriate that the highest distinction gift of the Portuguese Government should be thus conferred in view of the valuable services rendered the community during the period of emergency last winter.

The mobilization of Volunteers then entailed many personal sacrifices, inasmuch as the majority of Volunteers resided in the areas directly affected by the Sino-Japanese hostilities and the defence of such areas had to be left to other forces.

The Council unanimously acknowledged the community's gratitude to the Portuguese Company which the Shanghai Volunteers' commandant recently described as "one of the crack units of the Corps."

U.S. PUBLIC DEBT IS INCREASED BY 3 BILLION.

Washington, To-day.

An increase of more than three billion dollars in the public debt since September 30, 1931, was revealed to-day in a Treasury statement covering operations for the first quarter of the present fiscal year.

DIFFICULTY GREAT

But Past Experience Highly Valued.

TALKS TO WORLD.

London, To-day.

A personal view of the work of the League of Nations Commission of enquiry in Manchuria, was given by Lord Lytton, Chairman of the investigating body, when he spoke in a broadcast to which most of the world listened to-day.

Lord Lytton was convinced, he said, that the League of Nations would settle the Far Eastern dispute in time.

He particularly emphasised the fact that official interest in the work of the Commission had been immense, and everywhere he had gone he had seen the intense quality of the study public men were making of the very facts the Commission was seeking.

Lord Lytton spoke, too, of the elaborate hospitality of Manchuria. "It was difficult to avoid being completely exhausted by the daily and nightly banquets in our honour," he said, jocularly. Dealing with the prospects for a successful solution of the Sino-Japanese difficulties, Lord Lytton admitted that they still loomed large on the horizon.

"The difficulties are still very great but I am confident that the experience of the League acquired during the last twelve years will enable it to deal with them successfully."—Reuter.

Paris Raid On U.S. Dollar

Paris, October 12.
A new drive against the American dollar gained further headway here in the week-end's selling and pressure spread to the pound sterling.

The Press attributed the selling to President Herbert Hoover's speech at Des Moines, when he recalled how last spring the United States was nearly forced off the gold standard.

The dollar was quoted at 25.48 francs, against a previous close of 25.48.

The pound at its low was 87.80 francs. Pressure came not only from French sellers, but from Belgian and Dutch.

France, Belgium, and Holland are the principal gold holders of Europe.

The attack recalled the attempt in France to undermine the dollar last spring.

STOP PRESS

LA SALA CONVICTED.

Pastor de La Sala, manager for the Shameen Printing Press, pleaded guilty and was convicted to-day on a charge of common assault upon the person of Mr. Raymond O'Shea, editor of "The Critic." He was bound over on personal surety for \$250 for one year.

FASHION DICTATES

When lightweight felt hats of the close-fitting type are worn in summer a little greasy mark often appears through the band at whichever side the hair is parted. This stain may be prevented if a strip of cellulose wrapping is inserted between the lining and the inside of the hat, and stitched in one or two places to keep it in position.

Short Capes.

Making plans for the coming autumn, bear in mind that short fur capes, suggestive of the 1890's, are sure to be in the lime-light of fashion. They give the desirable width through the shoulders and slenderness through the waistline. Waist length fur jackets with fullish sleeves are also predicted and some of the advanced autumn coats are made with a furless foundation coat suitable for wear in autumn, with accessory short capes or jackets that may be worn either over the coat or over a woolen dress without the coat in colder weather.

Bright Touches.

Black dresses may also be brightened by a touch of colour contrast, and the newest way of doing this is with bright coloured hats and belts. A twisted velvet belt in two tones of blue, green, or red, with a turban in two tones of velvet to match, give an attractive colour note, and a plain black satin dress may be lightened by the addition of turban and capelet in white angelskin.

The success of pique and linen for evening dresses for the summer has opened the way for the use of lightweight woollen fabrics for the autumn; and wool crepes, jersey, and fine broadcloth are seen among the advance models in evening gowns.

Cotton Hats.

One of the most charming novelties of the moment is the organdi hat. It may be just a small turban, or it may be quite large. One turban was made of medallions of white organdi joined together over a foundation of the same material, and this was worn with a fine black veil lightly sprinkled with tiny white chenille dots. A larger hat had a very shallow crown, and a brim made of several layers of organdi all closely stitched, to

Princess Sees Blacksmiths

The Princess Royal, who visited the annual show of the Harrogate Agricultural Society, recently, was able to congratulate one of her dairymaids, Miss M. Cox, on winning the second prize in one of the buttermaking classes.

The Princess, who is a patron of the society, was officially received on the showground by her husband, Lord Harewood, who is the president. In a tour of the show the Princess Royal evinced special interest in the blacksmiths' competitions.

(Continued from previous column),
gather to give substance and firmness.

White pique is one of the favourite trimmings for black hats of all kinds, whether they be large or close-fitting turban shapes.

Women Crochet.

Crochet is more popular than knitting this season. Many women find it easier work because they cannot drop stitches. So they make for themselves the things that cost a lot of money in the shops. Crochet gloves, for instance, are worn with sports suits; they are gauntlet shape, in white natural, green, blue or red thread. Quaint fichus, also, are made of superfine white cotton crochet and worn on black frocks. Cotton crochet blouses are as popular as ever.

As to wool crochet, yokes and sleeves, tops of pinafore frocks, cardigan jackets and small boleros are worked in wide mesh, net stitch, or loop stitch.

Belts are made of several rows of double crochet, sometimes in two colours, sometimes in one colour to contrast with their respective dresses.

A very attractive plain dressing gown can be worked in double crochet from fine soft wool, and finished with a wide sash of crochet silk in a contrasting colour.

CHILDREN SUFFER FROM FEARS.

Good Advice For
Guidance.

THE USE OF IODINE.

When Johnny falls down and bumps his head, his first scream of pain is usually followed by a second scream of terror when mother opens the medicine chest to take out the liniment. When he burns his little finger his fright over the medicine mother is about to apply to ease his pain is almost harder for mother to bear than his suffering. Why all this terror over the medicine chest?

Because as a general rule those bottles and packages hidden away there are wrapped up in unfamiliarity. Many of them either sting or smart a little when applied. And of course, in his untrained mind, all of them are connected with pain.

How can mother overcome this terror?

By giving the child a chance to overcome the dread of "mystery" in those bottles and packages. Let him take them out of the medicine chest himself, then uncoil or unwrap them, let him smell and touch them, before the application is made. Gradually he will become familiar with the contents of that dreaded chest, and when something from it must be used on his body he will no longer suffer fear.

Learns His Lesson.

Little Henry, aged five, cut his hand deeply with a knife. The doctor prescribed painting with iodine. Of course, iodine stings and is far from pleasant. However, Henry's mother explained that unless he did as the doctor advised, his hand might become infected. If the infection became too bad, he might lose his hand and then not be able to play baseball.

She pointed out the iodine bottle in the chest and let him get it.

"Old Clothes" For Stars

Norma Shearer In
Dresses Of 1860.

Norma Shearer wears clothes of the 1860's in her latest Metro-Goldwyn-Mayer picture, "Smilin' Through," that suggest many of the fashion ideas found in the clothes of the present.

Even those not trained in studying fashion trends can not help but note the similarity in the details of the clothes of this earlier period with those advocated today.

Especially is this true of a party frock that reveals the same tightly-fitted bodice favoured in the 1932 vogue and the tiny cap sleeves and full skirt found in the modern frocks.

Equally charming and in tune with the season is her wedding gown of shimmering satin with drop shoulders, tiny puff sleeves and real lace outlining the neckline.

In Metro-Goldwyn-Mayer's "Unashamed," Helen Twelvetrees wears a number of costumes in keeping with this mood of the past. One is a coat of black broadcloth showing a double-breasted closing and a two-tier capelet, with wide revers giving that old-style coachman effect. A trim veil-trimmed sailor hat suitably sets off this coat, which was designed by Gilbert Adrian.

When one considers how wasteful is the method of cooking by means of boiling one wonders at the frequency it is employed. Boiled food seems to be specially favoured by many British housewives, although besides being wasteful it is somewhat flavourless.

At a dinner the other night on pondering over the general tastelessness of the meal I discovered that the fish were boiled, the mutton was boiled mutton, likewise the potatoes, and other vegetables. If you want a boiled dish, because you like it see that only one of its kind figures on the menu, let the other articles of food retain the nourishment by cooking them in some other manner.

Even mashed potatoes are the better for being boiled with their jackets on, and carrots and turnips.

(Continued from previous column).
Then she let him smell it, let him try a little of it on the cut, and gradually brought him to the point where he applied it in large amounts in the open cut. She had taken the "mystery" out of that dark bottle.

SOVIET TO EXPORT COPPER SOON.

Huge Discovery In Ural District.

Moscow, Oct. 5. With the discovery of new huge copper deposits in the Urals near Perm, in the Vornessinsk Uralinsk district, the Soviet-Union will, according to Moscow press forecasts, in the near future become a copper exporting instead importing country. It is stated that the Perm deposits, the discovery of which was paralleled by minor finds in Siberia and elsewhere, will yield 10,000,000 tons of refined copper annually, which equals the total output of the Northern Rhodesian deposits and that, moreover, the Perm ore contains a higher percentage of pure copper than any other ore known.—Transocean Kuomin.

MAIL REVIEW

"THE LOVE RACE"—QUEEN'S THEATRE.

"The Love Race," which is the current attraction at the Queen's Theatre, is another outstanding B. I. P. success which, by its unrestrained humour of the slapstick variety, provides delightful entertainment.

Under the capable direction of Lupino Lane, the film gives abundant opportunities to Stanley Lupino, in concert with Jack Hobbs for brilliant clowning and clever cross-talk in a succession of witty episodes calculated completely to obliterate depression and keep the ball of fun rolling at a brisk pace throughout.

Whilst Lupino and Hobbs shoulder most of the fooling, they are very capably supported. Frank Perfit is admirable as the stolid father. Dorothy Boyd is most attractive as the heroine, and Dorothy Bartlam lively and engaging as Rita Payne, the innocent cause of all the bother, whilst Arty Ashe gets the last ounce of humour out of the role of Eustace, the inebriated taxi-driver. The recording and photography are good and the settings artistically mounted.

MAIL REVIEW

"DON'T BET ON WOMEN"—ORIENTAL THEATRE.

Excellent entertainment is derived from Fox's production "Don't Bet on Women" the current attraction at the Oriental Theatre. Edmund Lowe and Jeanette MacDonald, two great favourites, are in the leading roles, being capably supported by Roland Young, and Una Merkel, both talented artistes. The plot centres round a wager between Lowe and Young regarding the kissing of Miss MacDonald, by the former. Recommended!

MAIL REVIEW

"THE RADIO PATROL"—CENTRAL THEATRE.

The American Police come into their own again in Universal's melodrama "The Radio Patrol" now showing at the Central Theatre.

The story deals with two officers, Robert Armstrong and Russell Hopton, attached to the patrol. The former marries the latter's girl, without marrying their great friendship. Armstrong accepts graft and is later killed by racketeers raiding a bank.

June Clyde and Lila Lee supply the feminine interest to the story. The film is good.

"PAID TO LOVE"—KING'S THEATRE.

The first Spanish all talking picture "Hay que Casar al Principe," under the name of "Paid To Love," a Fox production, is the current attraction at the King's Theatre. Local theatre-goers are being given a treat with this production, and should not fail to see it. Translations into English and Chinese of the main points of the story have been made.

Don Jose Mojica, the golden tenor of the talking screen, who appeared in the English production "One Mad Kiss," is the leading player with Conchita Montenegro opposite him.

The story tells of a bankrupt Balkan republic negotiating for a loan from an American millionaire who insists that the heir apparent marries The Prince (Jose Mojica) shows no inclination.

The Government engage a French cabaret girl to charm the Prince. But complications set in, with a full measure of misunderstandings when the girl mistakes the Prince's cousin, for the Prince.

"NICE WOMEN"—MAJESTIC THEATRE.

"Nice Women" now playing at the Majestic Theatre, tells of a beautiful daughter sacrificed marry a wealthy man, in order to help her impoverished family. The acting throughout is skilful, and the characters are splendidly portrayed by Sidney Fox (her best work to date) Alan Mowbray, Russel Gleason and Frances Dea. Recommended.

MAIL REVIEW

"THE LIFE OF THE PARTY"—STAR THEATRE.

Winnie Lightner, sings several new numbers in her own inimitable style in "The Life of the Party," her newest starring vehicle for Warner Brothers which is now showing at the Star Theatre.

In the story, she is first heard in a New York music shop where she is employed as a songstress, and later does her stuff at an exclusive Havana hotel where she has journeyed in search of a millionaire. The supporting cast includes Irene Delroy, Jack Whiting, Charles Judels and Charles Butterworth. Roy Del Ruth directed.

CHINESE ACROBATS.

Brilliant Show at King's Theatre.

The Joy Fun Joy Company appearing on an extended season at the King's Theatre are exceptionally good.

Their performance is similar to that of Long Tack Sam with amazing juggling, conjuring, and tumbling all of which are well executed. The background is a gorgeous Chinese screen set off by sparkling Chinese costumes.

The Company presented by Paun Yu Jen, consists of 12 Chinese acrobats and jugglers. Paun Yu Jen is China's foremost magician, and his mystic wonders are truly brilliant.

For almost half a century Germany was the strongest military Power in the world. Russia had larger human reservoirs upon which to draw, but, as was proved by the Russo-Japanese War and the Great War, her army was wanting in equipment and technique. In little more than a decade, Germany had built up a fleet which, in the opinion of many experts, was second only to that of Britain. Germans refuse to allow that in the Great War their soldiers were defeated. The collapse, they insist, was on the home front. The fighting men remained a disciplined force, leaving Germany from going the way of Russia. And their exploits are a source of pride which now, with the Russian army now smashed, has become a source of national pride.

Population Increases 385,726 In Decade.

PREDOMINANTLY URBAN.

The chief features of the census report for the County of Middlesex, are that from 1921-31 there was a substantial increase in population; that females outnumber males both in population and electorate in all the county's Parliamentary constituencies; and that the average size of families has been reduced.

The total population enumerated on the night of April 26-27, 1931, numbered 1,638,726 persons, an increase of 385,726 over the figures ten years previously, of a rate of 30.8 per cent. This rate is the highest in any of the counties of England and Wales.

At the first census, taken in 1801, the population of the extra-metropolitan portion of the ancient county was 71,411 persons.

The predominantly urban character of the county is shown by the fact that there are thirty boroughs and urban districts with an aggregate population of 1,589,397, and only two rural districts with 49,331 population. The former comprise 97 per cent. of the population, and 90 per cent. of the area of the county.

BIG URBAN CENTRES.

The urban areas with the largest populations are Willesden, Tottenham, Ealing, and Hendon, containing 184,434, 157,772, 117,707, and 115,682 persons respectively. There are nine others with populations in excess of 50,000, including the two municipal boroughs of Acton and Hornsey; of the remainder ten have populations between 50,000 and 20,000, six between 20,000 and 10,000, and in one case the population numbers less than 10,000.

The most prominent of the inter-censal changes is that recorded against Hendon Urban District, where the increase of 58,153 persons is numerically the highest recorded in the county; proportionately this increase is 101.1 per cent. of the 1921 population. Another noteworthy change is that in Kingsbury Urban District, which has increased by nearly 800 per cent. from 1,856 to 16,636.

ADULT SUFFRAGE.

Of the total population 1,110,868 are over the age of 21, and the presence of 1,076,658 persons on the electoral register in virtue of a residence qualification indicates the existence of an almost complete adult suffrage, enfranchising, as it does, 96.9 per cent. of the total adult population.

Females now outnumber males both in population and electorate in all the Parliamentary constituencies; the average female excess for the whole county being 13.2 per cent. in respect of population, and 18.1 per cent. in respect of the electorate. In Hornsey Parliamentary borough, however, the excess is nearly 40 per cent.

An increase of 30.42 per cent. in the population of private families has been accompanied by an increase of 44.54 per cent. in the actual number of private families themselves, and the average size of family has thereby been reduced by 9.6 per cent.—namely, from 4.05 in 1921 to 3.66 in 1931.

HOLLAND REFUSES TO NEGOTIATE.

Germany's Proposals Are Scorned.

Berlin, Oct. 4.

The official Dutch announcement that the German-Dutch negotiations regarding the new German import quotas have broken down because the German proposals do not offer a basis for a useful discussion, has been received here with surprise and regret.

The Dutch Government, it is authoritatively pointed out here, has itself for some time past fixed quite a big number of import quotas which resulted in a decrease of German exports to Holland by about 50,000,000 marks per year. The Dutch Government, it is further stated, introduced these measures without previously informing the German authorities, so that it must be regarded as completely inexcusable why now the Dutch Government suddenly declares that it cannot be regarded as a basis for a useful discussion.

BOYS TELL OF DIVER'S DEATH.

Inquest Adjourns For Further Evidence.

Further evidence was taken by Mr. Schofield, at the Central Magistrate's court yesterday afternoon, in the enquiry into the death of William Ramsay Stephens, Australian diver employed by the Government, who met his death on September 20 when engaged in diving operations near Queen's Pier. Hearing will be continued on Tuesday afternoon.

R. Jones, a school boy eyewitness of the tragedy, said that about 3.45 p.m. he saw the deceased standing on the ladder by the barge having his helmet adjusted by a Chinese. After that the deceased himself adjusted something on the side of the helmet. He then stepped into the water, and floated to the side of the pier. Witness noticed bubbles coming up. Four Chinese were working the pump at an ordinary speed. The diver was in the water for about two minutes, when witness noticed the Chinese with the rope pulling him up. Bubbles appeared all the while, but suddenly a large bubble appeared, and about ten seconds later the diver appeared. His helmet was off, and his head was on one side. He did not move or make any sign.

Another eyewitness, Peter Wilson, also a schoolboy, stated he noticed froth round the deceased's mouth when he came to the surface. Witness gathered something was wrong and immediately dashed off to the Star Ferry and telephoned for an ambulance.

WHISTLING FOR FOXES.

Foxes have become such a pest to graziers in the famous Burrigorang Valley, New South Wales, that something more than the traditional horse and hound has become necessary to exterminate them, states Austral News.

So farmers have invented a tin whistle which makes a noise like the cry of a rabbit caught in a trap. This device causes a fox to lose all sense of caution and to "stalk" the whistle when he is easily caught. Not even a real rabbit, however, has any appeal during the mating season.

10,000 MILES BY CARAVAN.

A retired British Army officer has completed a 10,000-mile journey in a caravan, states a Reuters message from Windhoek, Cape Province.

He is Major P. G. Diggle, who wanted an economical way of travelling. So he bought a caravan in Capetown, and, with his wife, set off on a trip through South Africa, Northern and Southern Rhodesia, Bechuanaland and South-west Africa.

His journey has taken seven months.

News In Brief.

There was a clean bill of health in the Colony on Wednesday.

At the Institution of Engineers and Shipbuilders on Thursday, Mr. Geo. Buchanan read an interesting paper on "Power Economy." The paper was accompanied by a number of technical formulae which greatly interested the professional engineers in the audience.

to advance the interests of Egypt; a quickened pace might bring the horse down and break its knees. It is enough to say that the horse has been down once or twice in the interval.

WAR FORESEEN.

Lord Cromer in 1909 foresaw the Great War. It was bound to come, he believed, because the doctrine of "the will to power" and of war as "part of the universal order of things instituted by God" had taken firm and increasing hold of the military and ruling powers of Germany. The menace of a Radical Socialist democracy and the menace of a world conflagration—these were the two perils he saw and feared.

His last act of public duty was to accept the chairmanship of the Dardanelles Commission. "I know it will kill me," he said; "but young men are giving their lives for their country, so why should not I, who am old?"

It was a noble saying, worthy of and inspired by the heroes of the ancient world, with whom, almost as familiarly as with his own contemporaries, he lived and moved and had his being.

CZAR'S \$50,000 STAMP COLLECTION.

Smuggled From Russia, Now In London.

A link with one of the tragedies of history is provided by an exhibition of the Czar's collection of proofs and colour trials of the Romanoff stamp issue.

This collection, which is said to have cost \$50,000, has travelled over most of Europe and parts of the United States since it left the possession of Nicholas II. shortly before his assassination.

For several years after it was smuggled out of Russia it was lost from view, but it was eventually acquired by a wealthy Englishman, who succeeded in preserving it intact.

The collection will shortly be offered for sale by auction on behalf of Guy's Hospital.

FOODS THAT MAKE BONE

Ensuring Good Really Sound Teeth.

Professor Edward Mellanby, physician at the Royal Infirmary, Sheffield, said that the food stimulating the formation of perfect bone were milk, cheese, butter, egg-yolk, and the fat of meat and fish.

The chief foods hindering calcification were cereals, including bread, oatmeal, maize and rice. Other foods which, by stimulating growth and not exerting a corresponding influence on calcification, tended to bring about defective bone formation included lean meat and white fish and most vegetable fats.

Climatic conditions in Britain were such that the baneful effect of cereals could not ordinarily be counteracted by ultra-violet radiation. "Indeed," he added, "all the circumstances, climatic, dietetic and economic in Britain appear to be conducive to defective bone formation."

On the question of prevention of rickets, he said that no cereals or cereal concoction ought to be given to an infant for the first eight or nine months, and even after that age only in small amounts for the first two years. Cereals formed far too great a part of the diet at all ages, and might well be replaced to a large extent by milk, eggs, cheese, vegetables, and fruit throughout life.

"If every woman and man grasped the fact that perfectly formed teeth could be ensured by the same simple means of feeding the young, a great advance in the prevention of rickets might naturally follow."

BOOM IN WEDDINGS AT SYDNEY.

With the lifting of the economic depression, Sydney, New South Wales, is experiencing not only a mild boom in weddings, states Austral News, but a definite move towards brighter weddings, as well.

The latest innovation is the hiker's wedding in real bush style. The idea originated with Rev. N. C. Goss, of Croydon, Sydney, at a recent service held for hikers at Kangaroo Point, and, as a result there were no fewer than 23 applications from hiker couples who were only too willing to start the new fashion.

LONG HERRING HAUL.

London, Sept. 14.

No fewer than 211 crans, or more than 200,000 herrings, the largest catch this season, were brought to Great Yarmouth yesterday by the Lowestoft trawler Feasible. The Yarmouth trawler Achievable landed 18,000 herrings.

FUTURE OF ENGLISH LANGUAGE.

Looking Ahead 200 Years.

WILL BE DIFFERENT?

That the English spoken in two hundred years' time will be very different from the English spoken to-day is the prediction of Mr. A. Lloyd James, Secretary to the B. B. C. Advisory Committee on Spoken English, in an address which he delivered to foreign students of the City of London Vacation Course in Education.

It would, he thought be a strange compromise between future British English and future American English. It was not generally realised that there were many more people in the world to-day who spoke American English than there were people who spoke British English.

It is true that there are more than twice as many Americans in the United States as there are English in the United Kingdom. It is also true that the 8,000,000 of Canada, by their contiguity with the United States, may be more likely to speak American English than English as the best English writers and speakers employ it.

AS JAZZ TO MUSIC.

But this is very far from being all the story. Those who know little of England who only England know. Outside of its own and immediately adjacent borders America makes little headway in the spread of its alternative form of English, which stands in relation to scientific language much as jazz does to music and impressionism does to the pictorial art.

There is a certain raciness about American forms of expression that has attracted those imitiveness submerges the critical faculty; but, beyond the wide adoption of certain phrases that are supposed to add force and piquancy to the written or spoken word, American-English has made little progress among the English-speaking peoples of the world at large, and it is devoutly to be hoped, says the Newspaper World, that, in spite of Mr. Lloyd James's prophecy, it will not make any more.

DRAWN PURE FROM THE "WELL."

It should, indeed, be one of the functions of the British Press to see that it does not. What the British Press says to-day a thousand British platforms and pulpits say to-morrow, and if a Times leader remarks that it is "up" to certain people to do something or other it will not be long before politicians in their places and ecclesiastics in theirs will be found to employ the same uncouth and philologically meaningless form of words.

What is needed in the newspaper writing, in the correspondence, and in the speech of to-day is a clear and simple form of language, with no unnecessary linguistic posing on the one hand, and with no slipshod decadence on the other. The great oratory of the past was drawn from "the well of English pure and undefiled," and what has hitherto sufficed for the masterpieces of English literature and drama, as well as for speech, both colloquial and formal, may very well be left to do so without any word killings from more or less haphazard sources.

Let the British Press and the British Broadcasting Corporation join hands in the worth-while effort to maintain the English language as we know it to-day in its position as the richest and, at the same time, the simplest language in the world.

ITALY INVOLVED IN CROATIAN PLOT.

Reported Planning To Aid Revolution.

Belgrade, Yesterday.

Allegations of Italian implication in the Croatian plot unearthed last week are made in a report by the Yugo-Slavian Ministry for the Interior.

The report alleges that plans were made for the Italian Government to supply arms and ammunition to the revolutionaries in Croatia, and to supply them with money.

ATTACK ON L.T.A. FAILS IN OBJECTIVE

MEMBER ACCUSED OF DISLOYALTY

EVENING CONTEMPORARY CRITICISED

PROPOSALS NOT SECONDED

TEAM CHOSEN UNANIMOUS DECISION OF EXECUTIVE COMMITTEE.

A SCATHING ATTACK WAS DIRECTED ON MR. S. A. GRAY AT THE EXTRAORDINARY MEETING OF THE L.T.A. EXECUTIVE COMMITTEE LAST NIGHT WHEN HE WAS ACCUSED OF DISLOYALTY TO HIS COMMITTEE AND WAS ATTRIBUTED WITH ARTICLES IN AN EVENING CONTEMPORARY WHICH WERE CONSIDERED UNHEALTHY IN THE INTERESTS OF SPORT IN THE COLONY.

NOT ONE OF THE TWENTY OTHER PERSONS PRESENT AT THE MEETING WAS WILLING TO SUPPORT MR. GRAY'S PROPOSAL OF INTERPORT TRIALS TO PRECEDE THE FORTHCOMING INTERPORT AGAINST SHANGHAI, THOUGH ONE OF HIS FOUR OTHER SUPPORTERS WAS PRESENT AT THE MEETING.

The proposal that Interport Trials should be held before the encounter against Shanghai on October 22 and 23 failed to receive a seconder for the motion, and Mr. M. K. Lo, acting President of the L.T.A., refused to place the second proposal, regarding future Interport Trials, before the meeting.

One remarkable feature of the meeting was that of the five signatories to the letter demanding the meeting only two were present at the meeting—S. A. Gray (Y.M.C.A.) and M. R. Abbas (I.R.C.). The remaining signatories were Feroz Ali (K.I.T.C.), W. J. Howard (C.C.C.), and Lee Wai-tsoi (S.C.A.A.).

Mr. S. A. Gray in proposing the motion said that the current form could only be considered when selecting an Interport team, and that the day had passed when the singles champion and runner-up were automatically chosen, together with other players with very fine records in the past. The younger players of to-day, he maintained, had brought about this state of affairs, and with a view to future contests this section of the tennis community should be given its chance, and that could be only accomplished by a series of Trials.

He went on to say that the public, who paid their entrance fee, had also to be considered in this respect, and that a truly representative side should be fielded in order to gain the support of that public. He advocated that Trials would considerably aid the selectors in their unenviable task, and that he was in no way attempting to belittle the efforts of the Selection Committee, which had, in his opinion, done the best they could under the circumstances.

PARTING OF WAYS.

Mr. G. W. Sewell in reply to Mr. Gray's proposals said that the publicity given by an evening contemporary to the Interport selection had been most regrettable and had shown very bad taste. He went on to say that in the face of press criticism loyalty to the Committee must be maintained if harmony was to be retained. He said that the meeting marked the parting of the ways—whether the L.T.A. Committee would stand or fall. The L.T.A. were in a different position to other clubs in that they were the figure head of such a cosmopolitan community, but the only means by which harmony could be retained within that community was by sticking to the Committee, elected by representatives of that community.

In a brief speech the Army delegate expressed surprise over the sudden call for Trials in view of the four months which have elapsed since the Interport was first suggested. He also was of the opinion that the press campaign launched in the columns of an evening contemporary left a nasty taste in the mouth. He was

of the opinion that Interport Trials under present conditions—the L.T.A. possessing no courts of their own—would be difficult to arrange. He maintained that the clubs which would be approached by the L.T.A. might quite easily be unable to accede to the request. He went on to say that the internal bickerings of the L.T.A. and the calling in of the Press would practically end the Association as a governing body.

FUTURE TRIALS.

Mr. Leo D'Almada said that he was prepared to support the proposal of Trials for future Interports, but that he was all in favour of standing by the present selection. As regards the Army delegate's suggestion that the L.T.A. would encounter difficulties in regard to securing a ground, he voiced the opinion that this difficulty could be overcome in an easier manner than that official had anticipated. He was also of the opinion that press criticism was perfectly in keeping, providing that it was of a healthy nature.

Mr. M. K. Lo preferred to make a few personal remarks before addressing the meeting as acting-President. He commenced by addressing Mr. Gray, whom he said had been responsible for the Press publicity in an evening contemporary. He intimated that he did not in the least resent the personal remarks which were published in that evening paper, and went on to say that both he and his brother "M. W." had written, to the L.T.A. suggesting that if a better pair could be found they would be quite prepared to stand down. He said that he was in the embarrassing position of being on the Executive Committee, but if he was asked to play by that Committee in the face of his own strong opposition, he would certainly play.

MR. GRAY ATTACKED.

He attacked Mr. Gray, who is a member of the Executive Committee, for his disloyalty by the publishing of articles against members of that Committee, and thus taking advantage of his position. He went on to say that the question of Trials was actually discussed by the Committee and that it had been rejected, and that the selection of the team was the unanimous decision of the Committee.

PTE. LEWIS WINS ARMY TENNIS TOURNAMENT.

Fully Extended by Conductor Mitchell.

Pte. Lewis, South Wales Borderers, won the Army Lawn Tennis Singles Championship yesterday at Sookun-poo when he beat Conductor Mitchell, Royal Army Ordnance Corps, by 6-4, 4-6, 7-5 in the Final Round.

At the conclusion of the match Mrs. Cannon presented the trophies.

CLUB "A" LOSE TO BORDERERS.

Losers Commence With Only Nine Men.

MILITARY WIN 3 TO 1.

Fielding three members of their first eleven, Davies, Hopkins and Smith, the South Wales Borderers "A" eleven defeated the Club "A" by 3 goals to 1 in an interesting friendly hockey match at King's Park yesterday afternoon.

The Borderers were by far the superior team and their speedy stick-work was a feature of the game.

In the Club defence, Lowe and Henry repulsed many dangerous attacks. But their forward line surely lacked combination, Owen Davies being weak with his centring.

The Club commenced with only nine men. A. A. Dand, the first eleven skipper, playing at centre-forward, until the arrival of Major MacIntyre and R. H. D. Wade.

In the first half the Borderers set up numerous attacks on the Club goal, and from these Davies scored. Shortly after, Hopkins, accepting a fine pass from Walters on the right wing, scored with a fast rising shot that beat Moses all the way.

The Club then broke through and Garrod found the net to decrease the lead.

In the second half the play was more even, but the Borderers were the aggressors in the early stages during which Jones increased their lead. Towards the end, the Club made many raids on the Borderers goal, but Motherwell was safe. Both Fox and MacIntyre had bad luck.

Speaking as acting-President of the L.T.A. Mr. Lo said that he could not look on the meeting in any other light than a deliberate show of non-confidence on the part of its members, and said that nothing could be done in the matter until the annual general meeting next year.

Mr. Lo went even as far as suggesting resignation, but said that if he was supported by the resignation of the other officials on the Committee the Hong Kong L.T.A. would cease to exist, as constitutionally there was no power to elect new officials.

Mr. Ildefonso then drew Mr. Lo's attention to the fact that Mr. Gray's proposals had not been seconded, and on the motion being put to the meeting a seconder was found wanting, though two of the five signatories to the letter demanding the meeting were present. Mr. Lo then straightway adjourned the meeting.

TWENTY PRESENT.

The following were present at the meeting:—Messrs. M. K. Lo (Vice-President, L.T.A.), C. P. F. James (Hon. Sec., L.T.A.), D. S. Green (Hon. Treas., L.T.A.), E. C. Fincher (K.C.C.), G. C. Burnett (K.C.C.), Leo D'Almada (Recreio), G. A. Noronha (Recreio), S. A. Ramjahn (I.R.C.), S. A. Gray (Y.M.C.A.), M. R. Abbas (I.R.C.), Firdos Khan (K.I.T.C.), Lee Woon-tai (S.C.A.A.), G. W. Sewell (S.C.A.A.), F. H. Kwok (C.R.C.), Sal Wellang (C.R.C.), R. E. Tottenham (U.S.R.C.), R. G. Lochner (U.S.R.C.), I. R. Ildefonso (Filipino Club), J. M. Cruz (Filipino Club), and Y. F. Chew (University).

SHANGHAI WIN POLO INTERPORT

BETTER SIDE PREVAILS OVER SOLO DASHES

CLOSE SCORE IN FINAL CHUKKAS AROUSES INTEREST

At Causeway Bay yesterday afternoon, the All-American polo team, representing Shanghai, once more won the interport polo match. They defeated Hong Kong by seven goals to five.

Brilliant shots were made in the six chukkas. J. H. Keswick played a splendid game for Hong Kong while Judge C. S. Franklin, captain of the team, and Don Burdick shared the honours in the Shanghai side.

A large crowd was present. His Excellency the Officer Administering the Government, The Hon. Mr. W. T. Southern and Mrs. Southern, His Excellency Major-General J. W. Sandilands, the Hon. Mrs. S. W. Tso, Sir Shou-son Chow and Mrs. C. S. Franklin, wife of the Shanghai captain, who sat with the official party, being some of the notables present. Tea was later served in tents erected behind the pavilion.

Mrs. Southern presented the Keswick Cup back to the Shanghai players, Judge Franklin receiving it. She was introduced by Major General Sandilands, who said, "It was the best polo game that I have seen in Hong Kong in the four years that I have been here. The Shanghai team deserves to win as possibly some of you don't know, they arrived at midday to-day, played this afternoon, will be our guests at dinner to-night, and are returning to Shanghai at eight o'clock to-morrow. I now ask Mrs. Southern to present the Cup."

Judge C. S. Franklin who received the trophy, said: "On behalf of the Shanghai team, I will say that we are happy to win. We were optimistic about winning as I insured the cup for a round trip. We go back with memories of a marvellous game and the fine hospitality that we have been shown."

The Play.

Play commenced, a heavy shot brought the ball near the goal, an unsuccessful try at scoring was made by Hong Kong. Shanghai regained the ball, but lost it to Major Barry who scored in the first three minutes of play. Ball was returned to the centre of the field. Keswick dashed off but was overtaken by Franklin. A contest ensued between Keswick and Franklin which resulted in the ball coming into Major Barry's possession. He passed with a beautiful shot to Keswick who took it to the Hong Kong end of the field. He tried for a goal but failed. Allman rode up at a furious pace, regained the ball, and passed to Woods who took it back into Shanghai territory in three heavy drives. Pollock headed him off and Allman, following at back, picked up the sphere but failed to score. As play was resumed, the ball sounded, ending the first chukka with the score 1 to nil in favour of Hong Kong.

Second Chukka.

Coming out of the skirmish as the ball was thrown by the referee, Woods broke clear and made a splendid shot. Pollock picked it up and passed to Barry, and Franklin intercepted and drove up field into Shanghai Territory. He scored with a brilliant shot from the side. Play was re-started and the ball was quickly taken back into Shanghai ground but Keswick, riding a fast pony, dashed up at a furious pace and stopped it. The ball went into the sideboards, and the players milled about trying to get it away. A Shanghai man got it out. Hong Kong took it away and passed it again to Keswick who headed for the goal at a fast pace. He missed the shot. Burdick retrieved and in three brilliant passes carried it to their opponents' goal.

and scored as the bell sounded ending the second chukka.

Third Chukka.

Barry got the pellet from the start and passed to Keswick who drove it the length of the field and almost scored in less than three shots. He repeated almost the same procedure but failed again. Keswick was all over the field and into almost every play. Burdick received the ball from a confederate, ran it down the field and scored. Major Barry, to retaliate, took the ball and hit it down half the length of the field. He followed and in another brilliant side shot, scored again for Hong Kong. Burdick got away a beautiful back shot which was close to a score. He rushed in between two Hong Kong men, turned his mallet for a brilliant shot from the side and scored for Shanghai.

Keswick made a desperate try for a tally but was unsuccessful as the bell sounded for the end of the third chukka. The score stood at half time, 4-2, in favour of Shanghai.

Fourth Chukka.

With Captain Franklin riding his veteran grey, the beginning of the second half saw Allman get the ball at the outset. He passed to Franklin who drove and followed the ball to his scoring goal. Hong Kong were there on the spot and a good fight ensued. Hong Kong got it away, after battling hard for the ball. Franklin got in and made a nice hit from the side of the field. He took the sphere down again and while Hong Kong were trying to keep him from scoring, the ball slipped in between the posts for another tally. Barry got away a fine shot. Allman picked it up and brought it back into his own territory again. Keswick got it away and drove hard for the score but Wood stopped him. The ball was very near the Shanghai goal and as the players grouped around, each trying to get it away, Keswick came through and scored. Franklin again got the ball as the referee threw it and made a brilliant shot from the South side board. The bell rung with the score at 5-3, in Shanghai's favour.

Fifth Chukka.

Before the players could really get warmed up, Keswick got the ball, rushed it down to the posts and shot it through with a brilliant play. Burdick, whose pony was faster than Keswick's, almost got the ball away from him. The ball seemed to be almost everywhere in the next few minutes. Franklin broke away finally and with a series of passed shots to his men, the ball came back to him and he scored. No real brilliant shots were made, play confining itself to the side boards or to the centre of the field where the players fought hard to get it away. Pollock finally got through and with a succession of shots, scored for Hong Kong.

Sixth Chukka.

Shanghai made a goal in the very first play. Barry worked the ball up to score but Burdick came in and got it away from him. Barry again went after it but Burdick, who was always close on his heels, came up and with a brilliant back shot, sent the ball yards back into Hong Kong's territory. Keswick got the shot and started up the field. Wood stopped him. Keswick retrieved the sphere and with a hard shot, counted the pellet down the field. Burdick caught it and knocked it back. He followed, but became entangled in the side boards. The ball was from one side of the field to the other and the ball sounded for the last chukka with Shanghai the winners by two goals.

ROUND THE CAMP FIRE

(By Patrol Leader.)

Congratulations to the Sea Scouts and the 14th Pack Victoria British School Pack Wolf Cubs on winning the Bird Challenge Cup and the Akela Cup respectively at the Scouts swimming sports last Saturday afternoon at the V.R.C. Bath.

While it is true that the Sea Scouts, holders last year, had a runaway victory of 32 points, they had little opposition. Besides, they had the advantage of the services of Shek Kam-pui, who took part in the Colony Championships recently and several other boys who have swum for the Fidelity Club (as the Commissioner, Rev. G. T. Waldegrave) later explained.

Shek Kam-pui's versatility. Shek Kam-pui, in winning the 50 yards senior championship, just missed clipping S. V. Gittins' record of 27 3/5 secs. set up in 1928 by 2/5 of a second. Shek also won the 100 yards senior championships and has a great future.

9th Kowloon Do Well.

A warm hand must be given to the Kowloon Dock Scottish Troop (9th Kowloon) who did extremely well to win the President's Cup, being runners-up to the Sea Scouts. They scored heavily in the diving, L. Phillips gaining first place and R. Phillips third. Jack Sharpam, of the Sea Scouts, who came second also did well at the Central British School aquatics held during the past week. The diving of J. Henderson of the 1st Kowloon, was also excellent, but he just failed to catch the judge's eye.

Too Few Entries.

It was a real pity that of a total of about 25 troops in the Association, only eight competed at the swimming sports, notable among the absentees being the King's College Troop, who were champions in 1930.

From Kowloon Scouts.

The latest from Brighton brings news of Gordon Marks' success in the School Swimming sports, Gordon, formerly a Kowloon Scout, came first in two events and was placed in two others.

Badge Successes.

Second Patrol Leaders F. Winyard and J. Winyard, both of St. Andrew's Troop, have won the Swimmers' and Missioners' Badges, respectively.

Scouts in Cycle Trial.

In the motor cycle reliability trial, the Scouts had representatives in Patrol Leader F. Wong, of the 1st Kowloon, and ex-Patrol Leader C. Spradberry, also of the same troop. We congratulate both of them on being placed fifth and eleventh, respectively, in the trial. Well done!

Tribute To G.O.C.

No better tribute could have been paid H.E. Major-General J. W. Sandilands, G.O.C., than that paid by the President of the Association (H.E. Dr. Kowloon) in presenting H.E. with the Thistle Badge. His Excellency has done much for local Scouting, and in opening the Girl Guide Sandilands Hut, H.E. has left a permanent mark in the Colony. The Scouting and Guiding Association will always remember in gratitude what H.E. has done for them.

Long Ago Stories Henry And His Holding.

Henry and his four little sisters and brothers trudged up towards the manor-house. They were orphans, and had come a long way to rent land from a great Noble who had more than he could manage. Henry was fifteen, a freeman, a proud lad, and the head of his family.

When they reached the manor, the keeper at the gates would not allow Henry to enter, but told him to attend the Court which the lord intended to hold under the old oak tree the following morning.

So the children slept in the woods, to save the money they would be obliged to pay at the lord's inn which was just outside his gates. Next morning, having washed in the brook, they walked to the Court.

"Henry and his little sisters and brothers, trudged up towards the manor-house."

The Noble sat under an oak on a wooden stool, judging his vassals, and it was a long time before Henry was allowed to speak.

"And what is your grief?" asked the lord, when Henry approached with his sisters and brothers behind him.

"I have no grief, my lord," he replied, "I ask a boon. I am Henry, son of Henry the archer who was killed in battle with his feudal lord. After my father's death, his land was seized by the conquering lord, who gave it to his own vassal. Now I have but two pieces of gold, two strong hands, and four workers—my brothers and sisters. And I come to pledge myself to my lord return for a small holding."

The lord burst out laughing, and said that such youthful serfs were of no use to him. They could not possibly cultivate twelve acres of land, and pay him in labour and corn, and 16 half-pence each November, and 15 pence whenever they brewed, to say nothing of going with him to battle when the king called upon him and he had need of soldiers.

"Try me, my lord," begged Henry, falling on his knees. "Aye, but I can come to battle with my lord, because the eldest maid is fourteen and will take my place at home."

Then Maud dropped on her knees beside her brother. And the lord asked her if she would undertake to pay him two hens, a cock, and two shillingsworth of bread at Christmas, and the same at Michaelmas, and on Saint Martin's day in November.

"I will," she promised, "And at harvest I will work the necessary (three days in my lord's fields if my brother cannot come. And if my lord will but count the five of us as one strong man, he will see that all will be well."

The idea of the five of them making one strong man so amused the lord that he gave Henry a holding.

As the five walked away, bound to serve the lord, and not even to sell an ox without his consent, a cheer went up from the crowd.

"Good luck to you, Henry Strongman!" cried the serfs and the nobles together.

That is how family names, or surnames, came into fashion. After that the young vassal was always called Henry Strongman. And when Maud asked permission to marry the tenant who held the land, "Maud Strongman, sister of Henry Strongman, you have been proved worthy," he said, "You shall have ten yards of cloth for a wedding gift, Maud Strongman."

NECKLACES AND BRACELETS.

Home-Made For A Few Pence!

You can make pretty necklaces to match your various frocks, for a penny or two apiece! And if you like, you can make bracelets as well.

The "beads" for the necklaces are made from circles of cardboard, covered with coloured wool. Suppose you want to make a necklace to go with a red and blue frock—you'll need two penny skeins of wool in these two shades, a few tiny wooden beads, and a piece of thin card.

Cut out the cardboard circles first. The three centre ones are one inch across, like Diagram A, and the others are three-quarters of an inch across. You'll need about twelve circles—more or less according to the size of your neck!

This uncommon necklace, with bracelet to match, will cost but a few pence to make. Dressmaker tells you all about it.

Make a little hole in the centre of one circle, then thread a darning-needle with red or blue wool. Bring the needle up through the hole, nailing to end of the wool firmly against the card, and wind over and over until the circle is quite covered. If you have to take a fresh piece of wool, tuck in the ends neatly. Diagram B shows the bead half-covered. When you've finished, thread a small wooden bead in the centre, and fasten off. Diagram C shows you what the finished circle should look like. Do all the others in the same way, and join them together. You can easily run the needle along at the back of the circles, and thread little wooden beads between them as you go. Then, with a clasp at the back, your necklace is ready. You can get little clasp for a penny each.

The bracelet is made in exactly the same way, only the circles are all the same size. Orange and brown, blue and gold, red and white—all sorts of pretty schemes can be worked out to suit your dresses. And if you have a plain dark blue or black frock which you'd like to cheer up, make a necklace of many colours to wear with it—red, orange, green, blue, yellow and so on. It will look very pretty and gay!

MARY VIOLET BROWN.

She felt as cross as a couple of sticks—did Mary Violet Brown! So they left her at home, and she wouldn't go to town. So they left her at home, and locked the door, and told her to read a book. And not to worry Auntie Rose, or dear old Grandpa, or Cook.

"I wish I could go to some Fairy Place," sighed Mary Violet Brown, "where they don't eat crust, or go for walks, or wander round the town."

"If I could live on cakes and jam, and have plenty of strawberry ice," "I'd be so happy and so gay—of course I'd always be nice!"

Mary sat on a chair, and swung her feet. Then suddenly she looked down.

And she saw a grinning Gnome, who who said: "Mary Violet Brown. We heard you sigh, and we've come for you, and now you shall have your own way."

"But only if you promise, us that you will be always gay!"

Away slipped Mary Violet Brown to the Merry Land of Gnomes, where streets were crooked, and houses queer had scarlet painted domes.

There was no bread, so there was no crust. And there were no walks round about. Nobody cared if you tore your frock, and you could scream and shout.

"Hürrah!" cried Mary Violet Brown, "This is surely the place for me!"

"Oh! Bring me some cakes, and bring me jam, and ices for my tea!"

She clapped her hands, and she danced a jig, and she jumped right up and then down. She changed so much, you'd hardly think that she was cross Mary Brown.

Now, cakes and jam and ices, too, if you eat too many for your tea.

Week in, week out, from day to day, will begin to disagree. They did with Mary—badly too!—so she asked for a slice of plain bread.

But the Gnomes just laughed, and told her that she hadn't got a shred!

So she ate cakes and jam and ices, too, and then ices, jam and cake. But they hurt poor Mary Violet Brown, and gave her bad toothache.

She longed and longed for something else—perhaps bread and a big slice of ham.

But all she got from noon till night was ices, and cakes, and jam.

"Oh! To be home again," she wept, "Never more would I cry, frown or scream. If I could only wake and find that this was just a dream!"

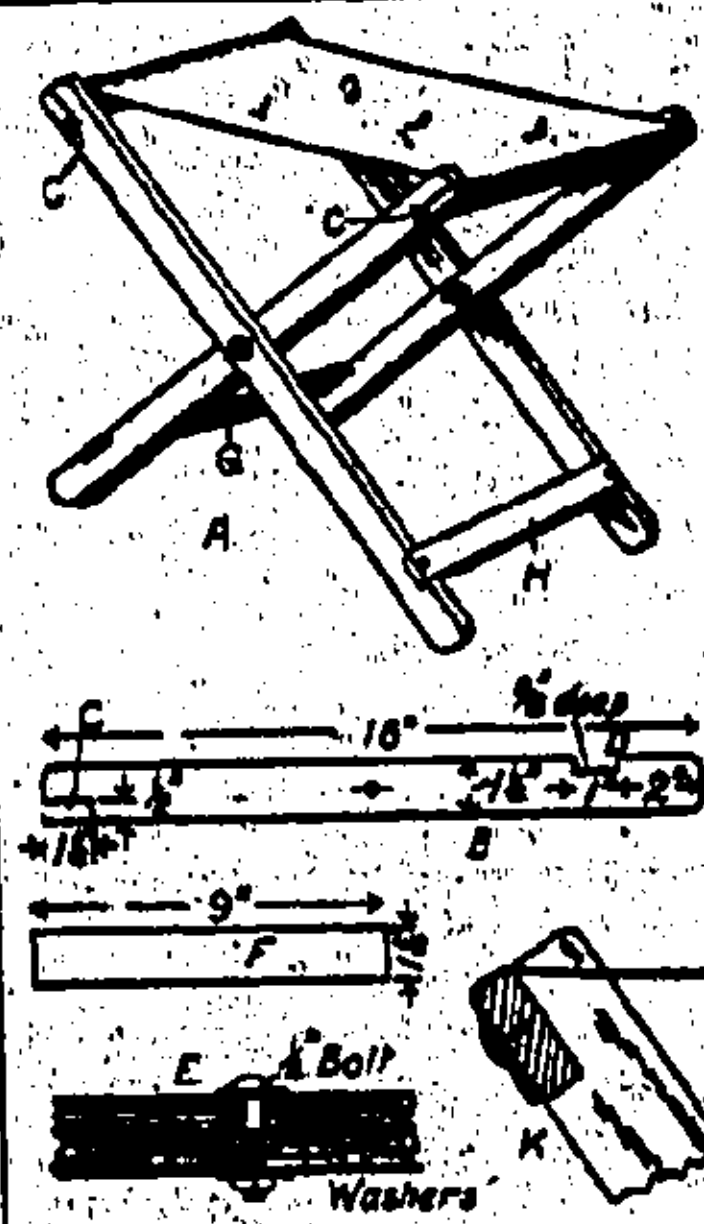

THE BILLY BOYS' WORKSHOP.

Making A Camp Stool.

Use ash or beech wood for the frame of the stool, if you can get it. Failing either of these, good straight grained deal, free from knots, can be used.

Four pieces of one-and-a-quarter-inch by half-inch wood, cut to a length of sixteen inches, will be required for the legs, which should be planed on both sides and edges. Clamp two pieces together and bore a quarter-inch hole right through the middle of both. Set out the slots C and D, and, with tenon saw and chisel, cut these out of both pieces at the same time, and round off the ends as indicated in the diagram. Treat the other pair of legs in the same way.

Now reverse one of each pair so that the slots C at the top ends are outwards, as shown in diagram A.

Carpenter tells you to-day how to make a useful camp stool, like this.

Then pivot the parts together with quarter-inch round-headed bolts and thin brass washers, as shown in diagram E.

For the top cross-bars, cut two pieces of wood, F, one nine inches long and the other eight inches long. Screw the longer piece in the slots C in the outer legs, as shown in diagram A. Fix the shorter cross-bar to the top ends of the inner legs in a similar way. Notice that the nuts on the pivot bolts are on the inside of the stool.

The bottom cross-bar G and H, which are eight and nine inches long respectively, can be cut from one inch by three-eighths-inch wood, and the ends screwed into the slots D.

It would be well at this stage to give all the woodwork a good rubbing with fine glass paper, after which a coat of varnish stain can be applied.

For the fabric seat, obtain a piece of strong canvas, sixteen inches long and seven inches wide. Turn over the arrow edges for about one inch, and attach the canvas to the top cross-bars by round-headed brass nails, as shown in diagram K. The stool will fold up conveniently for carrying.

The Hut Carpenter.

"If you sob and cry like that, we won't keep you any longer with us!"

Said all the Gnomes, "So out you go, and don't make any more fuss!"

And there was poor Mary Violet Brown, sitting up straight in her chair.

"Was it a dream?" she murmured low, "Or did I really go there?" She never knew, but from that day she changed. And now all the folk in town

Say, "What a surprise, she HAS grown so sweet. Mary Violet Brown!"

COME TO MECCA.

A wireless station is to be erected at Mecca, the holy city of the East. So let us take a little trip to this very ancient place, where all devout Mohammedans pray that they may go at least once before they die.

Mecca is the birthplace of Mohammed, founder of Mohammedanism; and is situated in the language of the east—two camel marches almost due East from Jidda on the Red Sea. This means a distance of about 45 miles.

The city lies in the heart of a mass of rough hills, and is approached only by way of two great passes through the mountains. Almost every day of the year, long lines of pilgrims can be seen making their way through these natural gateways towards Mecca—the city of cities!

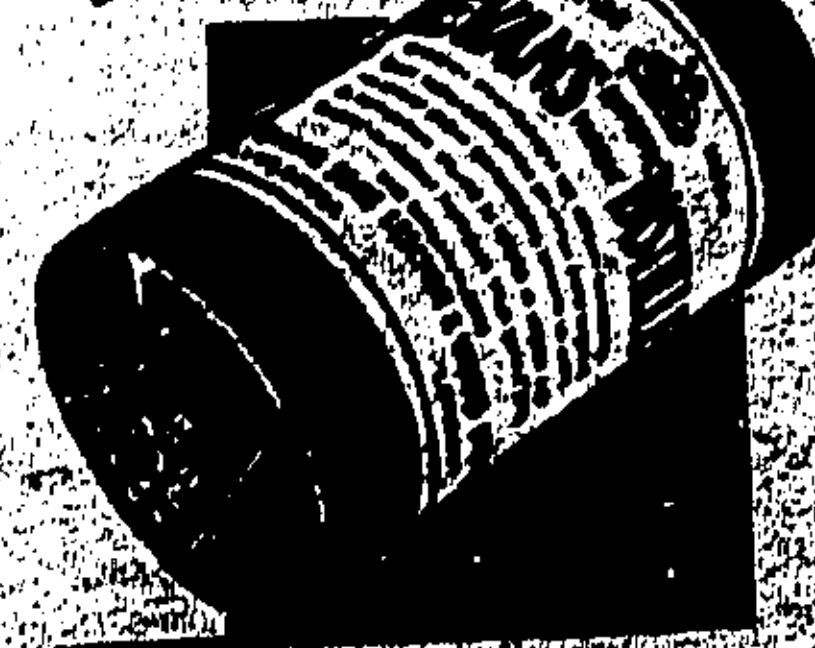

In appearance Mecca is like any other city of the desert, but naturally it contains many beautiful mosques and temples erected through the ages in honour of the prophet, Mohammed.

Apart from its religious interest, Mecca is famed as a commercial city, and at one time all the caravans (travelling merchants and their goods) dealing in incense passed through it.

The body of Mohammed is said to lie in the cemetery above the city.

But this statement has been disputed by high authorities and historians, who say that he was buried somewhere in the great desert within sight and sound of Mecca, but not within the city itself.

WHY, ARCHIE, WHAT IS IT? YOU LOOK SO HAPPY.

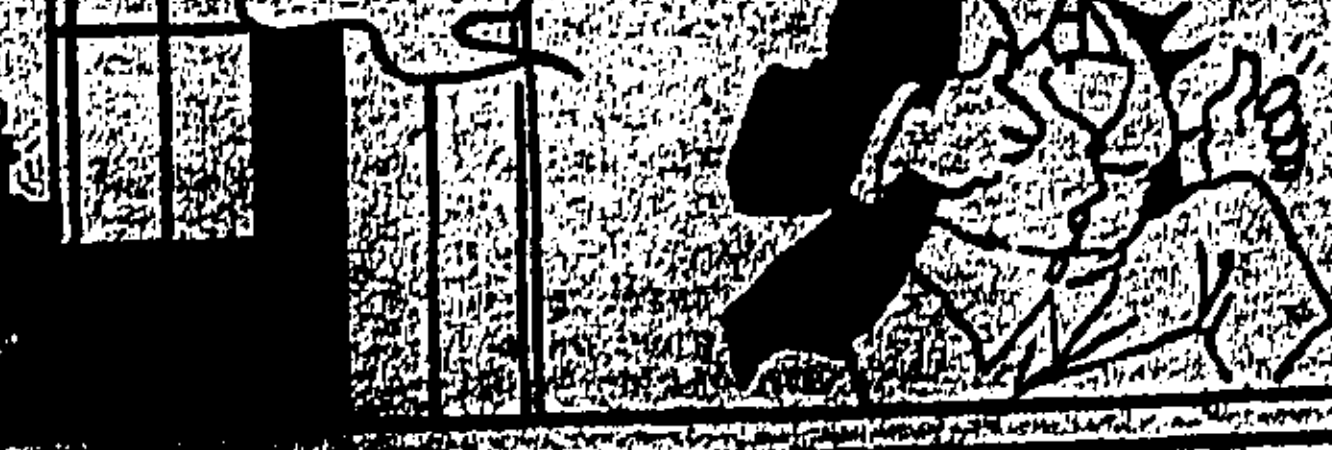

GEE! I'VE GOT TO THINK OF SOME WAY OF GETTING OUT OF TAKING ROSIE TO SEE THE PICTURE STARRING THAT MOVIE ACTOR SHE IS ALWAYS TALKING ABOUT.

THE MANAGER OF THE SHOW AT THE OPERA HOUSE GAVE ME TWO SEATS FOR THE MOVIE.

I HAVE IT! I'LL GET SEATS TO ANOTHER SHOW AND TELL HER I KNOW THE MANAGER AND HE GAVE ME THE TICKETS. I'LL TELL HER WE MUST GO, AS I DON'T WANT TO OFFEND HIM.

WHAT A NICE MOVIE ACTOR WHO IS PLAYING IN THE PICTURE I WANT TO SEE. IS HE GOING TO BE THERE?

GEE! FOUR DOLLARS A SEAT! GOSH! WELL, IT'S GOT TO BE DONE. I CERTAINLY DON'T INTEND TO TAKE HER TO SEE THAT MOVIE.

WHAT? HE'S TO MAKE A PERSONAL APPEARANCE?

I'LL GET MY THINGS ON NOW.

WHAT A SAMP! I AM!

SANITARY BOARD ELECTION.

Temporary Absence Of Dr. R. A. Basto.

An election to fill the vacancy made on the Sanitary Board by the temporary absence of Dr. R. A. de Castro Basto, will be held at the Supreme Court on Thursday, November 17, commencing at 10 a.m.

The elected member will continue to serve on the board until Dr. Basto returns to the Colony.

U.S.S.R. MEMORANDUM ANNOUNCED.

Foreigners in Russia Must Register.

A translation of a memorandum addressed to the British Embassy in Moscow by the People's Commissariat for Foreign Affairs of the Union of Soviet Socialist Republics, is published in the *Government Gazette*.

The translation says, *inter alia*, that in accordance with existing regulations, every foreign subject arriving on the territory of the U.S.S.R. must register in the foreign department of the local Executive Committee within 24 hours of his arrival at the place of his residence. In conformity with the regulations the passports of foreigners will be endorsed with a registration stamp.

FRENCH CHARGE GERMAN POLICE HAVE ARTILLERY

(Continued from Page 1.)

The official report of M. Massigli's speech shows that he insisted upon the military character of the German police but was not attempting to prove violations of the Versailles Treaty.

A sub-committee was appointed to decide in what countries police should be included in a calculation of military strength.

Meanwhile, an officially inspired answer has been issued by Berlin. It emphasises the organisation and arming of the police suited the aims of the Police Force but declares its transformation into an army would be a technical impossibility.—*Reuter*.

OPIUM POISONING.

Cheung Kuen, 24, a married woman of 86 Cheung On Street, was admitted to the Kwong Wah Hospital yesterday suffering from the effects of opium poisoning, alleged to have been self-administered.

An elderly Chinese woman, Wong Lin-chin, 69, employed as amah at 10 Peace Avenue, Ho Mun Tin, sustained internal injuries when she fell while at work yesterday. She was taken to the Kwong Wah Hospital in a serious condition.

Notice is given in the Government Gazette that Kennedy Town Bathing Beach will be closed after to-day.

To-morrow's Races

(Continued from Page 1.)

The Leger has attracted eight entries among which Wild Life is likely to start a strong favourite. On form he should win, but strong opposition will be offered by White Jade Stag and Navy Hall. Since the race is over 1 1/4 miles the Hall pony should be outstanding, as he is a long distance pony rather than a sprinter.

After his splendid performance in the Jordan Handicap at the Valley Cebu seems to be a certainty in the race for "D" class ponies, and there seems to be nothing in the field to approach him in any way.

If the "D" class race is a foregone conclusion, the last race of the day is equally uncertain. In a big field anything might win, though Pura Music seems a little better than most.

THREE ORDINANCES TO STAND.

It is announced in the *Gazette* that H.M. the King has not been advised to exercise this power of disallowance with respect to the following Ordinances:—

Ordinance No. 14 of 1932.—An Ordinance to amend the Importation and Exportation Ordinance, 1915.

Ordinance No. 22 of 1932.—An Ordinance for the resumption of the City Hall property.

Ordinance No. 24 of 1932.—An Ordinance to amend further the Crown Solicitors Ordinance, 1912.

LEGAL BEER FOR AMERICA.

Washington, Oct. 10.

Legal beer within a year and possibly this winter is forecast by Senator Burton K. Wheeler, Montana Democrat, who has just returned from a tour of North-western and Pacific states.

Wheeler said there was no necessity to subordinate the beer issue in this campaign.—*U.P.*

FRESH, FAIR.

The weather report issued by the Royal Observatory today states:—

The anti-cyclone is moving into the Pacific to the east of Japan; another appears to be developing over N. China.

The typhoon is situated about 200 miles south of E. Macclesfield Bank, moving slowly W.N.W.

Moderate to fresh monsoon will prevail along the China coast.

Forecast:—N.E. winds, fresh; fair.

HONG KONG-EGYPT AGREEMENT.

Reciprocal Favours Delayed.

It is notified in the Government Gazette that the operation of the provisional Commercial Agreement between His Majesty's Government in the United Kingdom and the Egyptian Government, instituting most-favoured-nation treatment reciprocally between Egypt and Hong Kong, has, by a further exchange of Notes been prolonged until February 16, 1933.

EUROPEAN WOMAN'S CUSTODY ACTION.

Seeking Separation From Chinese.

A continuance of the plea for separation was heard against William Wann, Chinese, by his wife, Elizabeth Wann, Norwegian-born, in the Kowloon Court yesterday before Mr. Butters. Mr. D. L. Strellett appears for the complainant and Mr. O. E. C. Marton for the defendant.

Mrs. Wann also asks for the custody of a child.

ANGLO-FRENCH PROGRESS AT ARMS PARLEY.

(Continued from Page 1.)

Agree to Confer.

London, Yesterday.

The Disarmament Conference between England and France has agreed that Britain, France, Italy and Germany should confer, preferably at Geneva, to discuss the disarmament difficulties. The British Government has invited Germany and Italy to adhere to the proposal. At Geneva only would the meeting seek the means whereby the work of the Disarmament Conference might be effectively reviewed and resumed.

The Conference ended at 1 p.m. Italy has already replied that she is willing to attend Geneva but Germany at present objects to Geneva as a venue.

M. Herriot, interviewed by *Reuter*, declared there would be no trouble whatever in reaching complete agreement.

"My English friends and France have agreed to confer with Italy and Germany, while Britain has agreed to the Conference being held at Geneva within the frame work of the League, and to be of a preliminary character," he said. "Unfortunately Italy alone has accepted."

It is learned that the British standpoint has not been changed and that she desires a four power meeting to clear up the Disarmament Conference difficulties.

It is earnestly hoped that Germany will not treat the venue of the conference as an insuperable obstacle.—*Reuter*.

Germany's Stipulation.

Berlin, Yesterday.
It is understood that Germany will accept the invitation to attend the four power conference at Geneva on condition that Germany's claim for equality is the sole object of the conference.

No attempt need be made to drag in Germany to a Disarmament Conference before this claim is admitted.—*Reuter*.

Always have GARDAN in the house!

In the tropics pain and illness are particularly liable to appear suddenly. In headache, toothache, neuralgia, rheumatism, sciatica, lumbago, muscular pains, and above all in fever and its accompanying symptoms, GARDAN is of definite value.

When you are out of sorts remember:

GARDAN
prevents and stops pain
